Patrizia Zoller - another representative of abstract art at the ARTBOX.PROJECT Barcelona 1.0

Patrizia Zoller will be represented with her artworks in Barcelona from 18 - 22 March 2020

Zurich/Barcelona (ptp028/02.03.2020/14:00) - **With her original artworks "Golden Delicious 2" and "Ruby Talisman", Maura Patrizia Zoller remains true to the popular characters of the abstract art scene of modern and thoughtful interpreters. Emotions and spontaneity in feminine features can be recognized in these works in a high-carat and expressive way. A variety of materials and manufacturing styles are combined in a fascinating composition of luxurious glamour and devotional lines. Dreams, fantasies and real experiences are reflected in wonderfully harmonious works, leaving the observer an infinite scope of interpretation and therefore creating a unique personal experience.**

Zoller also ventured into the world of colours. Torn and broken, angular, uneven and yet lively and harmonious, this artist also shows her feelings and uses the various means at her disposal to demonstrate them expressively. The work "Golden Delicious" in particular benefits from her beautifully shaped designs and exquisite colouring, because the special luminosity of the golden influences creates an almost magical attraction. The golden tone in particular triggers sensations, is impressive and has a fascinating effect on the viewer of this quite unique painterly composition.

Maura Patrizia Zoller herself is convinced of the impact of art in her life and describes it as a faithful companion. This amicably expressed gesture to such a magnificent expression of human imagination is unmistakably reflected in Zoller's paintings.
